Columbia Wins

In the Last Contest Sailed Today.

The Finish was the Closest Ever Sailed in a Yacht Race.

Columbia Won on Time Limit.—Not Likely That Another Challenge Will Come Over in a Hurry.

Special by Wire to Times-Democrat. Highlands, Oct. 4.—The yacht race today will be fifteen miles southwest to the lighthouse and return. There is fine breeze and the yachts should sail in four hours.

The Englishman Still in the Lead. The Challenger crossed the Columbia's bow at 1:07, showing that the Englishman was still in the lead.

Shamrock Forged Ahead. The yachts were timed at 11:30 and the Shamrock which had crept up on the Columbia was found to be leading by about one minute.

They are Off Again. Highlands, Oct. 4.—11:00 a. m.—They are off. Columbia in the lead. The Shamrock to the windward. The Columbia crossed the line at 11:02:45. Shamrock at 11:03:03.

Official Starting Time. The official starting time—Columbia 11:02:45, Shamrock 11:03:03.

Shamrock Still Leading. The gaps were nearing the mark at 1:10, with Shamrock still holding the lead. The Shamrock rounded the mark at 1:49 flat, Columbia at 1:50.

Columbia Making a Gallant Run. As the boats went along through the water the Columbia again showed her superior speed and placed to windward between herself and the Challenger that the Englishman did not appear to be able to cut her wind.

A Rattling Close Race. At 1:10 the Columbia led by nearly a mile.

Many Defeat the Columbia. At 2:05 with two miles to go the Shamrock is in the lead and may defeat the Columbia notwithstanding the allowance.

A Seesaw Contest. With three miles yet to go in very close the Shamrock and Columbia are sailing along. First one and then the other is in the lead. The Shamrock was ahead at 2:53 by a few seconds.

The Columbia Wins. At 3:30:04 the Columbia crossed the line and won the race. It was the closest finish ever seen in a cup race. The finish line was in direct line from this point, but observers with powerful glasses could not see any difference in yachts when they crossed the line. They went over at 3:36:04, and Columbia won on time allowance. The cup is safe and it will probably be a long time before another challenger comes for it.

The river was dragged a distance of several miles with no results.

Special by Wire to Times-Democrat. Tampa, Fla., Oct. 4.—War on the alleged "vagrant" striking cigar makers is on in full force. Hundreds have been arrested and given the alternative of 30 days in jail or go to work in the factories. Most of them choose the latter. The cafes and all resorts are raided in the most high handed manner but public sentiment is with any method, no matter how violent, to make the strikers work and save the cigar business. Many of the strikers are eaten and make violent threats against the city. The police force is doubled around the factories at night.

How Russia Deals With Strikes. Washington, Oct. 4.—A striking example of the manner in which Russian authorities deal with strikes and strikers is afforded in a report received at the state department from United States Consul Miller at Nien-chang under date of July 30. The men in the Nien-chang oil factories stopped work several days, striking for an increase of wages. The Russian civil administrator of the port immediately issued orders giving notice that he had arrested and punished the leaders of the strike, and that any of the men who refused to begin work the following morning would be arrested and expelled from the port.

McArthur's Future. Chicago, Ill., Oct. 4.—General McArthur probably will be the next commander of the department of the lakes. General McArthur passed through Chicago on his way to Washington and when asked if he were to take command of the department in March, when General Otis retires, he said: "I think it very possible—indeed, I may say probable, that I shall assume command in view of the fact that no other order has been issued. However, I can say nothing definitely. I am on my way to New York, after which I shall go directly to Washington, where I am to report for special duty that will occupy about six weeks."

LOOP

Made by Brooklyn at Santiago

Is Explained

By Lieutenant Doyle on Witness Stand.

Who Tells Why That Famous Turn was Ordered by Admiral Schley.

The Conduct of the Commodore While Under Fire Described by the Lieutenant of the Flag Ship.

Special by Wire to Times-Democrat. Washington, Oct. 4.—In the Schley enquiry today the morning was devoted to the coaling question. Experts made it appear that Schley had no excuse for a retrograde movement toward Key West. Lieut. Dyson was asked to compute the number of days each of the fighting ships could have remained on blockade duty at Cienfuegos May 25 and still have enough coal to return to Key West, a distance of 519 miles. His estimates were the Brooklyn 39 days, the Iowa 18, the Massachusetts 25, the Texas 15, the Marblehead 7. On Santiago to Key West 796 miles, his figures were, the Brooklyn 25 days, the Iowa 11, the Massachusetts 17, the Texas 7, the Marblehead 1.

SIGNAL OFFICER

Gives an Account of the Behavior of Officers.

Washington, Oct. 4.—After Lieutenant Doyle, formerly of Commodore Schley's flagship, the Brooklyn, had completed his testimony before the Schley court of inquiry, Captain William C. Dawson of the marine corps was called, and was followed by Lieutenant Charles W. Dyson of the bureau of steam engineering of the navy department. Captain Dawson was a naval officer on board the battleship Indiana during the naval engagement of Santiago, and he gave an account from recollection of the behavior of the various ships of the American fleet during the battle. He said the Brooklyn had gone about 2,000 yards to the southwest before joining in the pursuit of Cervera's ships. Lieutenant Dyson was introduced to testify concerning the coal supply of the fleet.

Lieutenant Doyle testified that the famous "turn" of the Brooklyn was made to avoid crossing the Spanish line. He was questioned as to the strength of the Spanish shore batteries, and was then asked how often he and Commodore Schley under fire. He replied: "Every time we were under fire during these bombardments and in the battle of July 3." Witness said the commodore during these times was just as well possessed as it was possible for any one to be under the circumstances. Continuing witness said smoke was observed coming over the hills July 2, 1898, and that Commodore Schley had expressed the belief that the Spaniards were preparing to withdraw from the harbor. It was the impression of the witness that the commodore communicated this intelligence to the squadron. On cross-examination witness stated that the Brooklyn was 5,500 yards from the Morro when the Spanish ships emerged, 300 yards farther out than the position assigned. He thought the Brooklyn's first shot had been fired four or five minutes after she began to move into action.

CHARGES

Conspiracy Against Trio of Lawyers,

Who With a Detective are Indicted.

Echoes of the Famous Union Factory Company Suit Which were Brought Up in Chicago Court.

Chicago, Oct. 4.—Four men—three prominent attorneys and a well known railroad detective—were indicted on the charge of conspiracy in aiding and abetting Bailiff James Lynch, indicted for attempted jury bribing, to escape. The men indicted were Attorneys Alex. Sullivan, counsel for the Union Traction company, successor to the West Chicago Street Railway company, against which corporation the suits were originally brought; Edward Maher and Frederick St. John, and George P. Murray, chief of detectives for the Illinois Central Railway company. Two of the indicted men, Sullivan and Maher, furnished bonds shortly after their indictment to the amount of \$10,000. The indictments are said to have been made on the evidence of Lynch, who returned to the city and is said to have turned state's evidence.

Lynch was arrested in December, 1898, charged with offering a bribe to Juror Chris Hawthorne, who was serving in a personal injury case. Lynch offered the juror \$100 to hang the jury. It was charged that a number of other indictments were found against the bailiff, the first being brought in Jan. 2, 1899. On Jan. 11 Lynch disappeared.

HEMP

Case Ventilated on Stand.

A Rotten Mess

Reflects Discredit on Administration.

Heistand Takes the Stand and Tells of His Relation to Hawks.

He Denies That Any of the Stock was to go to Government Officials for Their Influence.

Washington, Oct. 4.—In the Manila hemp investigation conducted by the senate committee on military affairs, Lieutenant Colonel H. O. S. Heistand, the principal in the case, took the stand. He detailed his acquaintance with Hawks and explained how he began negotiations with him as to the hemp company. At a meeting of several persons interested in the case, Heistand had said that he wanted some friends to have an opportunity to take stock in the company, mentioning the names of General Corbin, Assistant Secretary Melville and Assistant Secretary Allen. Major Hawley mentioned the name of Assistant Attorney General Boyd. As to the list of names of persons in his own handwriting, Colonel Heistand thought he wrote the list as Hawks mentioned the names. Witness branched the matter to General Corbin, who then seemed to think favorably of the proposition, but subsequently told witness he could not go into the company.

Senator Cockrell questioned Colonel Heistand closely regarding his relations with Hawks after the latter of introduction was taken from him. Colonel Heistand said he had told Hawks that he wanted nothing more to do with the hemp company. In a letter to Hawks relative to securing him a pamphlet about Philippine duties, Colonel Heistand had used the expression, "Of course, the needs of the future will be met as developments require." In response to Senator Cockrell, witness said this had no reference to the hemp company, but to general conditions in the islands. The cablegram which he had sent to General Otis asking about a site for a hemp factory, it was shown, had been sent as an official dispatch, and the reply also came as an official dispatch, both paid for by the government. Colonel Heistand said the fact that he had not paid for these messages was the only matter in the whole transaction that gave him any concern. He intended the message to go as a private dispatch. He had shown it to Mr. Melville, who told him it was all right if sent as a private message. Colonel Heistand was asked about the division of the stock, and asserted that none of the stock was to go to any officials of the government for influence they might use in promoting the interests of the company.

The need of another Methodist church in south Lima is imperative. For sometime the matter of building a church on the lot owned by the mission on St. Johns avenue has been considered. Dr. Mills, the presiding elder has interested himself in the organization of a new congregation, which will soon have a creditable church with a regularly appointed minister. The new church will owe its origin to Messrs. It is thought that although they are to be superseded by a minister of the Methodist church, these evangelists will receive some recognition of their prodigious task which perhaps could not have been so successfully accomplished by others.

BITTERLY DISAPPOINTED

Were the Drifters Over the Result of the Race.

London, Oct. 4.—The extent of Great Britain's disappointment at the defeat of the Shamrock II can be thoroughly appreciated only by those who saw the thousands of spectators lining the embankment. Almost to a man they were expectant of victory. The early editions of the newspapers announcing that it was the Shamrock II's weather had keyed up hopes here almost to a pitch of certainty, and many people entertained the idea that the depression over South African affairs might be relieved by a victory of Shamrock II. The latter's lead in the early part of the race so strengthened the impression that London threatened a repetition of the night. The crowds greeted the green lights on the towers and on the launches which paraded the Thames with wild delight. But Columbia's red slowly crept up and motor cars with megaphones dashed up and down the embankment proclaiming Columbia's lead. The yachts in the Thames reversed the position of their lights and those on the signal towers were changed. The crowds stood mute, awaiting the final messages. American cup dinners were advertised at the embankment hotels, and overlooking the river many fashionable people dined, watching the moving lights until red, full sides, was flashed out. "Columbia wins!" was shouted through the hotel corridors, and the throngs dispersed.

It has separated the health giving elements of Cod Liver Oil from the grease. It has made it possible for the most sensitive stomach to take Cod Liver Oil in summer when the system needs it most.

"The Apparel Of" Proclaims the Man."—SHAKESPEARE.

These Unprecedented Cool Days

Remind one of a change in wearing apparel. Why not be up-to-date and fix yourself from head to foot? When you can do so in a first-class manner for such little expense, and in ready-to-wear that's equal to made-to-order, only not in the cost, as the saving to you is fully one-half of made-to-order. The line that has made Rochester most famous as a first-class clothing manufacturing center is the

Rochester line of Suits and Overcoats, excelling the various other Rochester made in fit and workmanship, and really prices placed on them are surprisingly lower. You should see those at \$8.50, \$10, \$12.50, \$15, \$16.50, etc.; they are simply "world beaters." Also carry other good eastern makes at lower range of prices.

THE IDLER.

"The Evil Eye" Tonight.

Of late years theatre-goers have demanded a spectacle as a portion of the theatrical entertainment provided for them, and Chas. H. Yale and Sidney R. Ellis, the producers of the "Evil Eye," and many other great spectacular productions, have been wise in their day and generation for the supplying of such a magnificent spectacle as that which will be presented at Faurot's opera house tonight. Although it is two years since the play was first presented under the most favorable auspices in New York, in which city it has a run extending over many months, the production is still in the zenith of its glory and this year Messrs. Yale and Ellis have added to it many important features. They have drawn upon the ranks of both grand and comic opera performer for the soloists of the company and the cast of "The Evil Eye" this year includes such well known artists as The Bros. Kennard, Mayme Mayo, Chas. A. Loder, Josephine Baird, Geo. W. Kerr and others.

The Chicago Opera Company. The Chicago Opera Company which opens at Faurot's Opera house Saturday afternoon, is an organization of worth and artistic excellence though appearing at a popular scale of prices. "The Music Master" is a sparkling opera in which the composer, Genoa, has deftly introduced scenes from "The Daughter of the Regiment," "Norma," "Rigoletto" and "Il Trovatore," thus giving a happy blending of grand and comic opera.

"Way Down East."

"Way Down East," manager Wm. A. Brady's great production that caused no end of enthusiasm during its long season in New York, is to be at the Faurot Opera House Monday evening. It is from the pen of Lottie Parker, and is a play which has a special appeal to persons morally inclined. It attracts folk who have never attended the theatre, and to see it is to feel the better for the pleasant hours it gives you. It is one of those plays that after you have seen it you say: "seems as if the plays were getting nicer; let's go again." The seat sale opens Saturday morning.

COLDS THAT "HANG ON."

A cold taken at this time of the year, unless "broken up" may "hang on" all winter, and is apt to run into grip, catarrh or bronchitis, and possibly break up the health of a life time. Nothing can be more important than the cure of a fall cold. It means so much, it should have prompt attention. Twenty per cent of the deaths in the United States are from colds, but no one dies of a cold who takes Dr. Humphrey's Specific "T" in time. For sale by all druggists. Sent prepaid on receipt of price. Humphrey's Remedy, Med. Co., N. Y.

Contagious Blood Poison

There is no poison so highly contagious, so deceptive and so destructive. Don't be too sure you are cured because all external signs of the disease have disappeared, and the doctor says you are well. Many persons have been dosed with Mercury and Potash for months or years, and pronounced cured—to realize when too late that the disease was only covered up—**Like Bogets Lito**—driven from the surface to infect the system and to their sorrow and mortification find those nearest and dearest to them have been infected by this loathsome disease, for no other poison is so surely transmitted from parent to child as this. Often a bad case of Rheumatism, Catarrh, Scrofula or severe skin disease, an old sore or ulcer developing in middle life, can be traced to blood poison contracted **The Sin of the Parents**, in early life, for it remains smoldering in the system forever, unless properly treated and driven out in the beginning. S.S.S. is the only antidote for this peculiar virus, the only remedy known that can overcome it and drive it out of the blood, and it does this so thoroughly and effectually that there is never a return of the disease to embarrass or humiliate you afterwards. **SSS** cures Contagious Blood Poison in any and all stages; contains no mineral to break down your constitution; it is purely vegetable and the only blood purifier known that cleanses the blood and builds up the general health.

Our little book on contagious blood poison is the most complete and instructive ever issued; it not only tells all five ever issued; it not only tells all about this disease, but also how to cure yourself at home. It is free and should be in the hands of everyone seeking a cure. Send for it.

AN UNEQUALED RECORD.

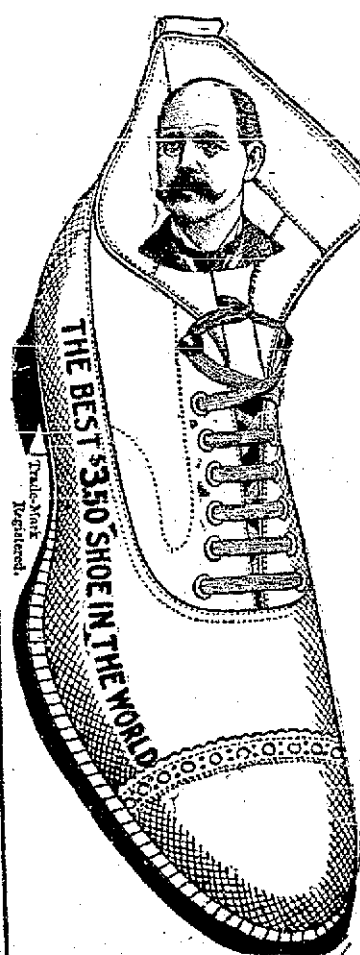

There is a Rapidly Increasing Volume of Lima Evidence Rolling up for the Great Medicine Dr. A. W. Chase's Nerve Pills.

It would seem that hardly anyone can take Dr. Chase's Nerve Pills without receiving marked benefit. The wonderful action of this medicine in putting people on their feet who are in a weak run down condition is the talk of every place they are known. It is only a short time since they first came to Lima yet today they are more in evidence for merit with Lima people than all other medicines combined. Mr. B. W. Blair, of 133 east Market street, Lima, Ohio, says: "Dr. A. W. Chase's Nerve Pills are all right. I found them a medicine that could and would steady the nerves, give good general strength and a feeling of vigor. I was when I got the medicine at Wm. Melville's drug store just run down out of sorts. One thing I know they did me more good than anything of the kind I ever took. I feel right good and well every way again." Dr. A. W. IT STRIKES THEM.

A good many people wonder why
the republican bosses of Ohio declare
that there shall be no discussion of
home and state issues this year. It is
largely because of the following plank
in the democratic state platform:
"One great danger which now
threatens our free institutions is the
widespread corruption which menaces
the destruction of public virtue.
Vast sums of money are corruptly em-

ployed in popular elections; official
defalcations are so frequent as scarce-
ly excite attention; and political
bosses rule and rob the people, all of
which is a direct result of republican
policies and legislation."

The republican bosses do not like
that kind of talk. They know that if
the people indulge in it they will be
put out of business.

GOOD**Well Produced in New Territory**

Forty Miles from the Big Texas Pool.

According to Information, Thought
to be Authentic, the New Well
is Good for Four Hun-
dred Barrels.

A dispatch from Somerset, Ky.,
says: There are now 33 wells drilling,
or to be drilled, at once, in this end of
the Kentucky fields. The Neely well
is down about 1,500 feet and was still
in the limestone when last seen. It is
probably a failure. They intend to go
to 2,000 feet.

The Somerset Oil company's No. 2,
at Sunny Brook, is the largest well
now in this state. It was tubed last
week, with three-inch stuff and the
production once that time has been
about three tanks a day.

The Monarch Oil company's well at
Dabney is down 499 feet.

A Lancaster, Ohio, crowd came in
here last week and purchased 3,000
acres of leases and paid \$1,500 cash
for them, and agree to drill four wells
in six months and carry a tenth inter-
est for the man from whom they pur-
chased the territory.

The Monarch Oil company has made
another trade with a St. Louis com-
pany, for the drilling of six wells in
the near future. It therefore, looks
as if this section was about to be pret-
ty well stirred up.

As stated contracts have all been
closed for the drilling of 33 new wells
at once.

Down in Texas.

The George W. Smith well, 40 miles
northeast of Sour Lake, Texas, is an
oil formation of some kind. A dis-
patch from the nearest telegraph sta-
tion conveyed the information that the
well was good for 400 barrels a day.
This report got to the front all right.
But another stated that there was a
good showing of oil in the well and
that it promised to make a paying pro-
duct. The public can judge just as
well regarding the situation as the
writer hereof. At the present moment
we are a long distance from the well
and no telephone line nearer than 40
miles.

RAIN

Interfered With the
Sport at

Wapak. Fair

On Banner Day, Which
was Yesterday.

A Large Number of Lima
People Went Down to
See the Fun.

The Lima Horses Which were En-
tered in the Races Did Not
Do Much for Their
Owners.

This seems to be the year for county
fair successes. From all points re-
ports arrive to the effect that this is
"the largest year in the history of
fairs." Allen county had her success
last week. Auglaize county is break-
ing all previous records this week, yes-
terday being the largest fair day in the
history of the county.

The crowd is estimated at from
15,000 to 20,000, and of this number,
Lima had its share of several hundred.
Everything goes in the town of Wapa-
koneta this week and the crowd, noisy
streets would indicate as much.

Yesterday's races were good. Sev-
eral Lima horses were entered, which
had much to do with the Lima attend-
ance. The track was fast up to the
second heat of the 2:28 pace, when a
cold rain cast a gloom over the thous-

ands of people and made the track
much slower.

The Races.

Nellie Storm, always a favorite in
Lima, won the 2:14 pace in straight
heats, taking the last two with ease.
The first heat was very close. Chest-
nut Boy contending every foot of the
stretch.

In the 2:28 pace, the Lima talent
was not so near the front at the
finishes.

J. W. Hayes' Fred Wilkes won third
money; W. N. Faurot's Teddy Roose-
velt was sixth in each heat. Alex.
Carson's Bessie W. was distanced in
the last two heats.

Following is a summary of yester-
day's races:

The exhibits are not up to the high
standard established this year by
Allen county, but the most
liberal rules prevailed everywhere,
and visitors are accorded a good time.

FIRST

Game of the Season to be
Played Tomorrow.

Lima Will Meet Fostoria in a Bat-
tle on the Gridiron at
Reeves Park.

The Lima High School foot ball
team plays their first game of the sea-
son tomorrow, with Fostoria, at
Reeves' park, seven miles northeast
of Findlay and about half way between
Findlay and Fostoria. The Lima team
is in excellent condition and a victory
is looked for. The Lake Erie & West-
ern has made a rate of \$1.25 for the
round trip and many Lima enthusiasts
will take in the game. The Fostoria
team is one of the strongest High
School teams in northwestern Ohio
and is confident of winning.

TEACHERS' CLASS AT THE

CARS

Were Piled Up in a
Heap

And a Delay

Of Trains on the P. F.

Resulted.

A Side Swipe Made a Bad
Mess of Things at
Bucyrus.

Officials of the Pennsylvania In-
spected the Line Between Crest-
line and Ft. Wayne—Other
Railroad Notes.

A rather costly wreck occurred on
the Pennsylvania at Bucyrus about 11
o'clock Wednesday night. Engine 5,
which was hauling an extra freight
train, left the main portion of the train
east of the Toledo and Ohio Central
crossing and went forward with five
cars to transfer them to the station
side track. While they were backing
up the rear portion of the train moved
forward and a side-swipe collision oc-
curred, which piled eight cars up in a
manner that completely blocked both
of the tracks. The wreck crews from
Port Wayne and Crestline hastened to
the scene and the tracks were cleared
and open to traffic by 6 o'clock yester-
day morning. In the meantime those
passenger trains due there were de-
layed more or less, No. 15 two and one-
half hours and No. 5 about three hours.
The former made a detour of the
blockade. Nobody was injured.

Inspecting the Road.
Assistant Chief Engineer E. G.
Ericson, Superintendent J. B. McKim,
Engineer of Maintenance of Way W.
B. Blake and other Pennsylvania of-
ficials made an inspection of division
C, yesterday, between Port Wayne and
Crestline, traveling on a special train.
They left Crestline in the morning and
reached Port Wayne last night. Mr.
Ericson made a trip over the division
on a passenger train yesterday.

Thieves robbed the Pennsylvania
ticket office at Kirby, Ohio, Tuesday
night, securing about \$200 in cash, only
\$5 of which belonged to the railroad
company. The thieves got the tools
for breaking into the building at the
tool house at Forest, stole Dr. Mundy's
buggy and drove to Kirby. The
charge used to open the safe was so
heavy that it blew out every window
in the front part of the depot building.
Captain Stoll's men are working upon
the clue which it is believed will lead
to the arrest of the thieves.

C. H. & D. engineer R. W. Lane has
moved his family into the home he
recently purchased at 436 east Mc-
Kibben street.

Agent J. J. Madigan, of the C.
D., at Leipsic, is in the city. Mr.
Madigan is on his vacation part of
which he will spend with his father at
Sidney.

Traveling machinist of the C. P.
D., went to Toledo this morning to do
some repair work on the 9 spot.

There was a report that two Italians
working on construction work below
Piqua, had gotten into a quarrel and
one of them was killed yesterday
afternoon, but an investigation was
made and it was found that one man
was hit in the back with a hammer,
but no serious injuries followed. The
offender was placed under arrest.

Athlo-phoros

STOPS LUMBAGO

Druggists Sell It. Send for Booklet.

When the muscles of the back are rheumatized, called "lumbago," these muscles are very important, and an attack of this form usually stops the patient from his or her usual work. Athlo-phoros is quite positive and certain. It expels the uric acid from the blood and removes the pain and stiffness. Lumbago is easily cured if you use Athlo-phoros.

Dr. Morris, Ia. Gentlemen:—Athlo-phoros is the greatest remedy for Rheumatism and Lumbago that ever was sold. After taking the first dose I was relieved, and one bottle cured me, and also cured one of my neighbors.

I remain, as ever, your friend,

ELIZABETH TABOUR.

CHEAP BUFFALO EXCURSIONS.

The C. H. & D. R'y. will have cheap excursions every Tuesday at exceptionally low rates. By using the C. H. & D. you have the privilege of a beautiful ride via Detroit, through Canada and via Niagara Falls, also the privilege of a ride across Lake Erie from Toledo or Detroit in one direction. The morning train leaving Cincinnati at 3:20 a. m. carries through cars for Buffalo. Passengers will thus have no change of cars to make. For particulars regarding rates inquire of C. H. & D. agents.

A Fiendish Attack.

An attack was lately made on C. F. Collier of Cherokee, Iowa, that nearly proved fatal. It came through his kidneys. His back got so lame he could not stoop without great pain, nor sit in a chair except propped by cushions. No remedy helped him until he tried Electric Filters which effected such a wonderful change that he writes he feels like a new man. This marvelous medicine cures backache and kidney trouble, purifies the blood and builds up your health. Only 50c at H. F. Vorkamp's drug store.

Stricken with Paralysis.

Henderson Grimes, of this place, was stricken with partial paralysis and completely lost the use of his arm and side. After being treated by an eminent physician for quite a while without relief, my wife recommended Chamberlain's Pain Balm, and after using two bottles of it he is almost entirely cured.—Geo. R. McDonald, Man. Logan county, W. Va. Several other very remarkable cures of partial paralysis have been effected by the use of this liniment. It is most widely known, however, as a cure for rheumatism, sprains and bruises. Sold by Wm. M. Melville, old post office corner.

BY ARBITRATION

The Asphalt Controversy in Venezuela Will Be Settled.

Caracas, Venezuela, Oct. 4.—It was learned from an authorized source that, after a conference of more than two hours at the United States legation, Minister Bowen succeeded in persuading the parties to the asphalt controversy, the representatives of the Bermudez company and of Warner & Quinlan, to accept arbitration. The state department has been requested to urge the asphalt companies in New York to accept this plan, which will settle the perplexing question. Every one here is pleased with the result and there is praise on all sides for Mr. Bowen.

The time by quarters was as follows: First quarter 1:30; half 1:02, three-quarters 1:34, and the mile in 2:05 1/4. The track was in excellent condition and the weather fine. All live in the country.

Stars in the National Game

Are to Play

In Lima Next Tuesday Afternoon.

The Cream of the Profession Represented in the Two Teams

And Bresnahan and Carrick, Formerly of Lima League Team, Will Appear Again in Uniform.

After the season for base ball has been almost entirely exhausted, without even a single shout of a fan to remind Lima that there is such a thing as a recognized national game, there comes an opportunity of witnessing a real, genuine contest and one that is of the highest order. There arrived in Lima yesterday evening Joe Cantillon, the veteran ball player and umpire, who is now in advance of two of the representative teams of the American and National leagues and the object of his visit was to arrange for a game to be played in Lima next Tuesday afternoon, the day being between games to be played at Toledo and Fort Wayne.

Mr. Cantillon was somewhat surprised to learn that Lima had no established ball grounds, but the difficulty was soon overcome, as the laying out of the diamond does not call for a very great outlay of time or money. Enough of the fans got together last night to settle the matter, so far as location was concerned, and Mr. Cantillon, accompanied by Supt. Mountney, of the street railway company, paid a visit this morning to the fair grounds and looked over the field. The decision was reached that with but scarcely any trouble the diamond

could be laid out so that every play in the game could be plainly seen from the grand stand and the work of putting things in condition will be pushed forward without delay.

The two teams named are made up of the stars of the National and American leagues, as the list of names to follow will convince every follower of the game, and aside from the interest that attaches to the contest, it indicates that so far as the players themselves are concerned there is a unity of purpose and a feeling of friendship toward each other that is not displayed by the magnates who own and control the base ball interests of the two big rivals. The games played between the old professionals are all the more interesting because of the fact that the players are drawn from the two associations and there is as much anxiety to win as though they were still battling for the pennant.

A particular matter of interest to those who expect to patronize the game, is the price of admission, which has been established at the astonishingly low figure of 25 cents. When it is considered that all through the season the clubs have played to thousands of people at a charge of 50 cents in addition to extra grand stand fees, it is certainly placing an opportunity before the sport loving people of Lima not often met with and there is sure to be a big crowd present. As stated before, the diamond will be laid out so that every player can be seen from the grand stand, and the small charge of 10 cents will be asked for seats. At these figures the admission to grounds grand stand, and fare to and from the park will be but 45 cents all told, and there will be hundreds of people in Lima and from surrounding towns, who will hail this unsurpassed treat with delight.

The players will arrive here from Toledo at noon and a special car will convey them to the grounds, the time of the game being set for 2:30 o'clock, a little earlier than usual, so that there will be time for the clubs to change attire and leave for Fort Wayne on the evening train. Mr. Cantillon has furnished the following line up of the players which also shows from which club they come:

American League—Bresnahan, of Baltimore, and Sullivan, of Chicago, catchers; McGinnity, of Baltimore, Mercer and Carrick, of Washington, and Bernhardt, of Philadelphia, pitchers; Davis, of Philadelphia, first base; Lajole, of Philadelphia, second base; Bradley, of Cleveland, third base; Williams, of Baltimore, short stop; Barrett, of Detroit, center field; Donlin,

of Baltimore, left field; Seymour, of Baltimore, right field.

National League—Shriver, of Cincinnati, and Spear, of Buffalo, catchers; Donavin, of Brooklyn, Taunehill, of Pittsburg, Kitzon, of Brooklyn and Lever, of Pittsburg, pitchers; Jake Beckley, of Cincinnati first base; Tom Daly, of Brooklyn, second base; Dahlen, of Brooklyn, short stop; Irwin, of Brooklyn, third base; Keeler, of Brooklyn, right field; Barrie, of Philadelphia, center field and Shockerd, of Brooklyn, left field.

Notes.
There is an added interest attached to the coming of the ball players, as it will be the first visit paid to Lima in years of Bresnahan and Carrick, both of whom were members of the Lima team when the city was connected with the tri-state league. To see both of these now celebrated players in uniform again will be an especial treat for the fans.

The two clubs are making their way to the Pacific coast and have a season of five weeks booked ahead in California. Arrangements are also being made to go to Honolulu for a two weeks engagement under the auspices of a steamship company.

Mugsy McGraw, the scrappy player, who is one of the most prominent figures in the base ball world will be with the teams, as will also the great player Mathewson. Neither of them will take part in the game however.

WEDDING

At St. Marys is of Local Interest.

A happy event in which St. Marys' society was interested, occurred Wednesday, the nuptials of Dr. Harry Spencer Noble and Miss Catharine Ellen Mooney, being solemnized at high noon. The bride is a sister of Judge Mooney and also of Charlie Mooney, one of the most popular of the clerks with the Buckeye. The latter returned home yesterday evening after attending the happy event.

HUSBAND

Sent to the Pen for Forgery

And the Wife was Granted a Divorce.

Wife of L. L. Bliss, Formerly of Lima, Among Those Who Got Relief in Court This Morning.

Judge Cunningham granted three divorces this morning, the one of perhaps most local interest being the case of Myrta M. Bliss vs. Lester L. Bliss, the decree being granted because of the defendant's conviction and incarceration for forging. Bliss is well known in Lima, where he did work on local newspapers, but he got in trouble here and finally at Youngstown got caught in the meshes of the law.

A decree on the grounds of adultery was issued to Velma Decker, wife of Isaac Decker.

The other case was Willa Ewing vs. Osie O. Ewing, habitual drunkard vs. Orsla O. Ewing, habitual drunkardness being the ground established.
